Hammer Nutrition Founder

Brian Frank

Our Triple Satisfaction Guarantee

Products	Powerful, safe, natural, and undeniably effective! They will outperform the competition every time.
Knowledge	By using our time-tested, science-based fueling protocols, you will achieve your best possible performance.
Service	Second to none, the best you've ever had! We treat you like you are important to us, because you are.

For the past 39 years, my singular mission has been to help people attain the highest degree of health and performance using a holistic approach to nutrition and fueling.

We support our products and the athletes who use them with honest information and the best customer care.

INNOVATION Since 1987, we've led the field every step of the way, spawning new product categories and a long list of imitators in the process.

PRINCIPLES BEFORE PROFITS. Since 1987, I've been steadfast in my unwillingness to compromise my principles to make a buck or increase profits. With my company, you can rest assured that if you see my brand on a product, it's going to be good for you. You can sleep easy knowing that if I would not eat it myself or feed it to my kids, I won't try to sell it to you.

PRODUCT INTEGRITY. Every one of our products is 100% research-based and extensively field tested before it is ever offered for sale to you. Our products are comprised of the highest-quality U.S. and European ingredients and manufactured in accordance with the strictest manufacturing practices in the world - carefully

selected for complete efficacy and provided in amounts that will deliver real benefits and promised results.

SERVICE. It's All About You. From day one, we've treated every client exactly the way we want to be treated when we are on the other side of the counter—fairly, honestly, and individually—without exception.

LESS IS BEST. Our pioneering “less is best” approach to fueling before, during, and after exercise has revolutionized endurance sports participation and massively extended the limits of what can be accomplished by athletes.

EDUCATION. Our voluminous body of available information stands as a testament to our commitment to educating and informing our clients. We take a holistic approach to athletic performance and health, distill it, and share it with you in a language you can understand because an educated athlete is an empowered athlete.

Give us a call anytime to speak with me or one of our friendly, knowledgeable client advisors. You'll find that we really are different.

I guarantee your satisfaction unconditionally—always have, always will.
